# What is Instilled?

**Instilled is not a new technology.**

Instilled is a culmination of proven technologies integrated in one platform that offers the market the ability to **create, deliver, and analyze** learning in a **simple and efficient** way.

**Simple. Efficient. Reliable. Affordable.**

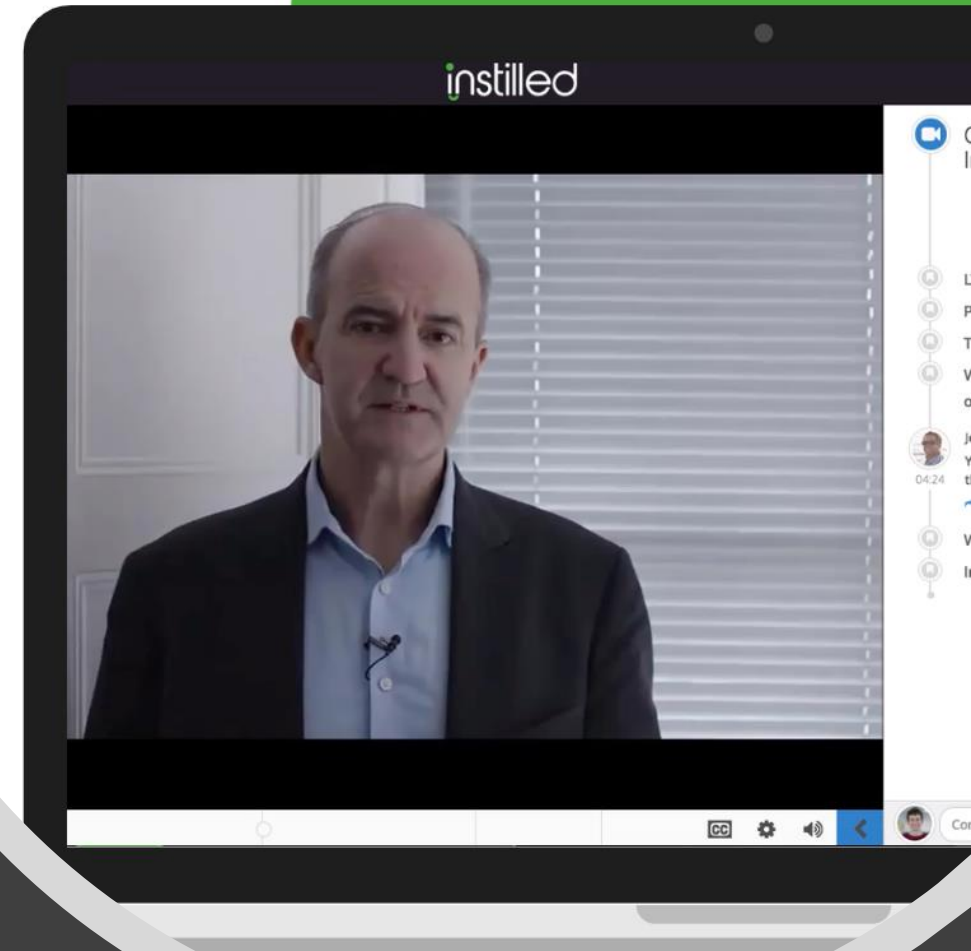

Is Instilled an LXP?  
*WHAT IS AN LXP?*

A Learning Experience Platform  
should help people  
experience learning **better.**  
**This is what we do.**

# Here's what we believe...

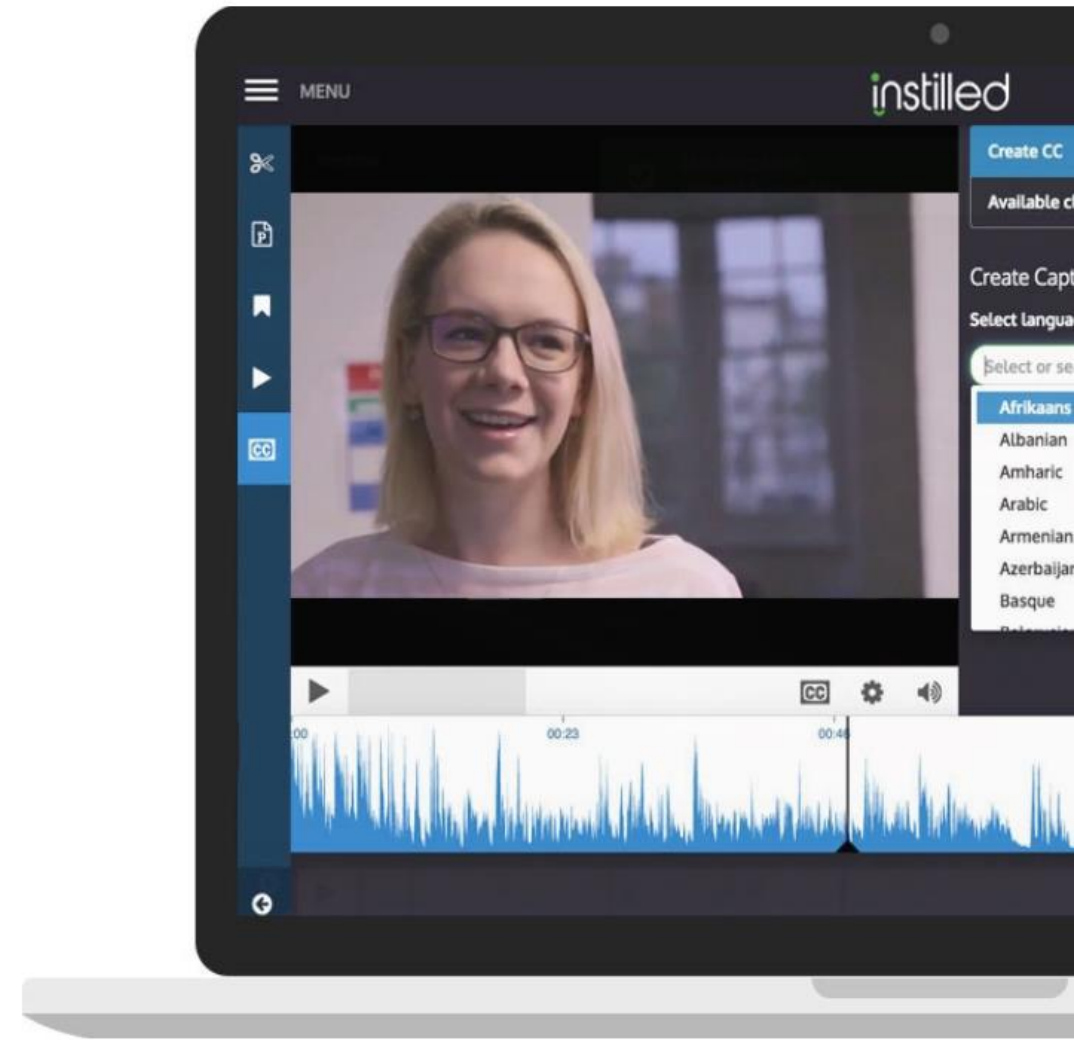

- Learning can be within 2 clicks.
- Creation and curation can be done by anyone and without formal training.
- Implementation should never cost more than an annual license.
- Technology should help learners **want** to consume training/learning.
- Learners should expect to get what they need quickly and then get back to work.
- We do less than most LMSs & LXPs on the market today. **This is our advantage.**

Let's see how it works.

# So Why Instilled?

## A Learning Experience Platform Created for Efficiency

Instilled is an easy-to-use, structured corporate **learning experience platform (LXP)** that supports a modern learning culture. It's the simplest way to capture, catalog, and discover organizational knowledge at scale. Lead your learners to the right content—created by subject matter experts and peer groups—without distractions. With Instilled LXP, you can offer engaging learning experiences that don't sacrifice efficiency.
