

## Canon imageFORMULA DR-M260

### Outstanding Workgroup Scanner

The Canon imageFORMULA DR-M260, chosen by BLI analysts as winner of a Winter 2018 Pick for Outstanding Workgroup Scanner, offers...

- An onboard DR processor
- A robust software package from Kofax and Canon
- Broad media support
- Exceptional paper-feeding technology
- An easy-to-use control panel and one touch scanning capabilities
- Integration with existing business software

Busy knowledge workers don't have time to waste at a shared scanner. They require a fast and reliable device that can convert a wide range of hardcopy media into searchable, editable file types and route them where they're needed most. The Canon imageFORMULA DR-M260 checks all of these boxes and more. Users can create up to 99 customized scan profiles—all of which are easily accessible at the device's control panel—to streamline frequently recurring scanning tasks. And with the bundled software from Kofax and Canon, users won't have to waste time rescanning documents because of poor image quality or organizing documents once scanning is complete.

"We were particularly impressed with the device's paper-feeding technology," noted Joe Ellerman, Manager of Lab Operations at Keypoint Intelligence - Buyers Lab. "The DR-M260 has sensors in the paper path and ejection site to reduce jams and minimize paper damage. And rare for most devices, the left and right feed rollers are driven independently of each other to prevent skewing when capturing mixed-size batches. Thanks to the built-in DR processor, you don't have to sacrifice speed for image quality. And to avoid slowdowns because of computing limitations, the chip handles image processing on its own rather than relegating it to the connected PC."

## About **Keypoint Intelligence - Buyers Lab**

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

## About **Buyers Lab Pick Awards**

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab's Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
