# THE GENSUITE STORY

*FAST GROWING / HIGHLY ENGAGED GROUP OF SUBSCRIBERS*

*Built on a heritage of proven success in GE: 1997 – 2010*

*50% annual growth rate in subscribers since launch!*

EHS & SUSTAINABILITY | RESPONSIBLE SOURCING | QUALITY | PRODUCT STEWARDSHIP  
SECURITY | REGULATED ASSET & EQUIPMENT MANAGEMENT

- 👍 16,000+ Sites
- 👍 1,000,000+ Global Users
- 👍 In 120+ Countries
- ♥️ #1 in Customer Service (NAEM MIS Survey, Capterra)
- ♥️ 91% Customer Retention Rate (since 2015)
- ♥️ 100% On Time Launch, Mostly <3 months

## Comprehensive Solutions Suite

- Built on **Best Practice** Workflows
- Latest Tech & Innovations
- Scalable from one site to enterprise

## Cloud-Based, Single Version Software

- Readily Configured & Launched typically in **<3 months**
- Powerful Extensions, IT Integrations & API library
- Continuous evolution, never obsolete

## Streamlined Collaboration Platform

- Supporting 30+ Languages
- **1,000,000+** users in 120 countries
- No user licenses, rapid deployment

## Engaging & Empowering Stakeholders

- Real-Time Data Analytics & Dashboards
- Accessible across Desktop to Mobile
- Global support team in **8 countries**

# Gensuite Industrial Hygiene Comprehensive Solution

## Anticipation

Identify Tasks for Evaluation and Profile Characterize Exposed Population (SEG, # Employees, Occupation)

## Recognition

Qualitative Assessment models- simple or detailed QLEA

## Evaluation

Track and analyze quantitative assessments and employee notifications

## Control

Utilize seamless integration with other modules to manage root cause analysis for exceedences, sampling plans, or corrective actions

Data Results: 250 [View Charts](#) [Lookup OEL](#)

Chart Results

Descriptive Statistics (OEL = 250)	
Number of samples (n)	25
Maximum (max)	250
Minimum (min)	0
Range	250
Percent above OEL (%>OEL)	0
Mean	49.05
Median	3
Standard Deviation (s)	88.79
Mean of Log Transformed Data (LN)	-52.21
Standard Deviation of Log Transformed Data (LN)	98.19
Geometric Mean (GM)	0
Geometric Standard Deviation (GSD)	9.22337203685E+016

Test for Distribution Fit	
W-Test of Log Transformed Data (LN)	0.55
Lognormal (a = 0.05)?	No
W-test of data	0.59

Normal Parametric Statistics

Mean	49.05
$UCL_{1.95\%}$ -t statistics	18.67
$UCL_{1.95\%}$ -t statistics	79.43
95th Percentile	195.1
$UT_{0.95,0.95}$	252.54
Percent above OEL (%>OEL)	27.83
