FAIR & SQUARE

#SHIFT HAPPENS

Think Outside of the Booth™

Speaker: Alexa Gough

Alexa is the Occupational Hearing Solutions Manager at SHOEBOSX Ltd. In this role, she works with some of the most forward-thinking employers and onsite/near-site occupational healthcare providers in North America. She has a passion for partnering with them to find innovative ways of improving the way they deliver audiometric testing as part of their hearing conservation programs, all while helping them achieve their overall business objectives.

Would you like to offer - or expand -
your hearing testing program but find it:

1

Expensive

Costly to buy &
maintain traditional
equipment or
outfit a mobile clinic

2

Difficult

Lack trained
professionals qualified to
administer the service

3

Inconvenient

Unsure of how to reach
satellite locations or
schedule re-tests

There is a better way

SHOEBOX PureTest is a comprehensive hearing testing solution perfect for In-House teams & Service Providers

1

Less expensive

Add or expand services
- no trucks, no sound booths, less maintenance

2

Greater Flexibility

Existing team can administer hearing tests

3

Better Experience

Test in any quiet, comfortable location, easier to sanitize

An Unprecedented
Last Ten Months

A Global Pandemic

That caused a near total closure of businesses around the globe

"More than 100,000 small businesses have closed forever as the nation's pandemic toll escalates." - The Washington Post

Conservation Programs Delayed

Hearing took a backseat as employers focused on the health and safety of their employees

The New Normal

As businesses slowly start to reopen, EHS managers face many new challenges

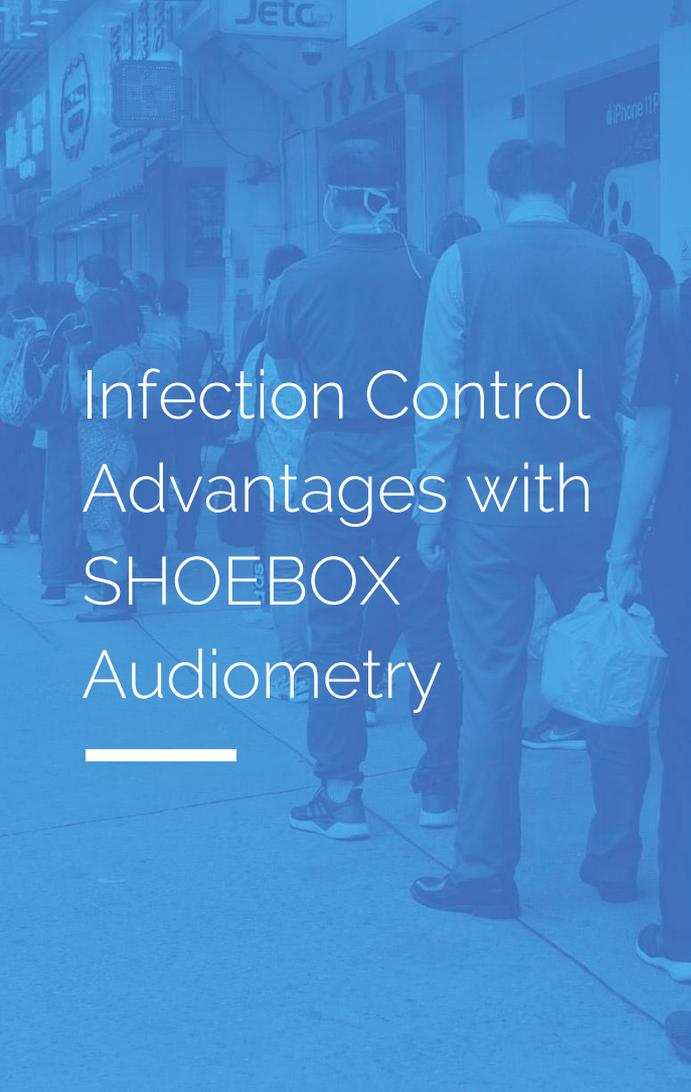

“Along with the severe health and humanitarian crisis caused by the coronavirus pandemic, businesses around the world face enormous challenges: the collapse of customer demand, significant regulatory modifications, supply chain interruptions, unemployment, economic recession, and increased uncertainty.” - Harvard Business Review

Employee Health & Safety

Priority #1 - Health and
safety of all employees

Infection Control Advantages with SHOEBOX Audiometry

Remote On-boarding

Onboarding with SHOEBOX is completely remote and performed through online services

Professional Supervision

Our team of Audiologists and healthcare professionals can advise on best practises to minimize risk in your program

Compact & Boothless Equipment

- Testing equipment is compact, highly-portable, and optimized for testing outside of a sound booth
- Hardware components can be disinfected, or used with protective coverings

Physical Distance

Tests can be self-administered enabling safe physical distancing between the test administrator and the employee being tested.

SHOEBOX Testing

- **Save money** — reduce reliance on trucks, no offsite retesting, less employee downtime
- **Flexible testing schedule** — test on-demand and never worry about an employee missing a test again
- A better **employee experience** — test in any comfortable, OSHA-compliant room
- **Be compliant** — SHOEBOX meets the OSHA requirements of an ANSI-compliant audiometer

Getting Started

1. Scope

- Understand needs
- Define & deliver proposal

3. Onboarding

- Training
- Portal configuration & use

5. Reporting

- Have your results reviewed
- Generate reports to share with your clients

2. Deploy

- Units configured & shipped
- Data sanitized & imported per client

4. Testing

- Onsite Testing
- Return for retests if feasible

What Makes Us Unique?

Dedicated Support

you deal directly with us for purchasing, deployment, onboarding, and support

More than just testing equipment —

everything to make your customers successful
