Achieving EHS Excellence

- **EHS Management**
 - Base Platform – Dashboard, Analytics, CAPA's
 - Audit & Inspection
 - Incident Management
 - Compliance Management
 - Job Safety Analysis
 - Management of Change (MOC) & PSM
 - Safety Meetings & Safety Participation
 - Training Tracking Management
 - Sustainability Metrics
 - Contractor Management
- **Risk Management**
 - Risk Analysis & Bowtie Management
 - Risk Verification
 - Risk Governance
- **Training & Learning**
 - Learning Management System (LMS)
 - Course Content (EHS, OSHA, Compliance, DOT, etc.)
- **Industrial Hygiene Management**
 - Sample & Equipment Management
 - Program Management
 - Medical Surveillance
 - Respiratory Fit Testing
- **Ergonomics Management**
 - Office Ergonomics
 - Industrial Ergonomics
- **Environmental & Sustainability**
 - Air Emissions (Tracking, Equations, Title V)
 - Waste Management
 - Environmental Compliance
 - Water Management
 - GHG Monitoring
 - Legal Register with STP
- **SDS / Chemical Management**
 - SDS eBinder
 - Inventory Management & Tier II Reporting
 - Emergency Response Services

Industrial Hygiene Challenges

- Number of onsite IH professionals are decreasing
- IH programs being led by more EHS generalists
- Knowledge lost
- Paper files get lost, hard to retrieve
- Plethora of MS Excel files
- Software is too complicated to set up, use and administer

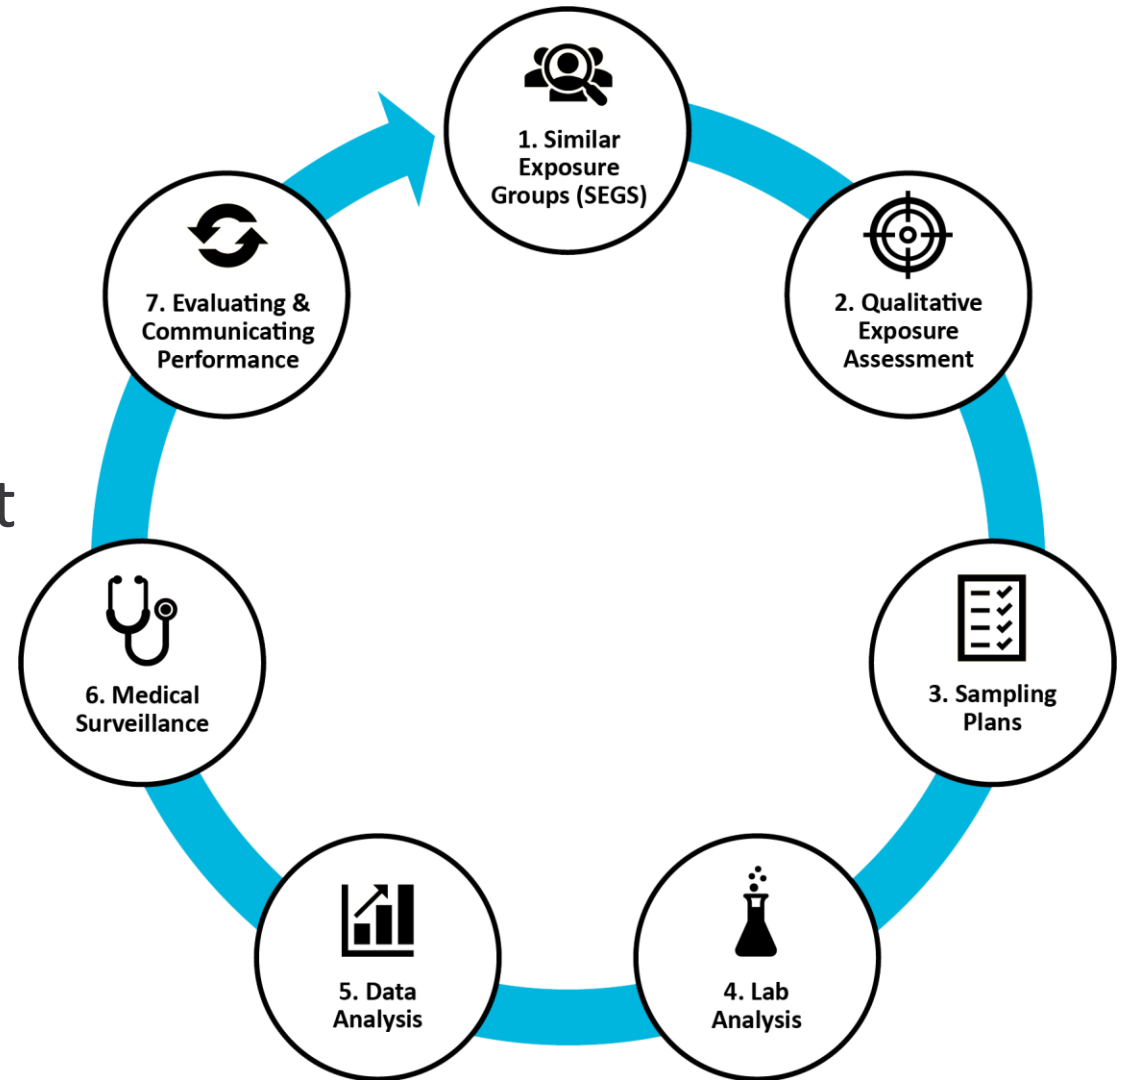

VelocityEHS Industrial Hygiene Solution

- Simplify the implementation, use, and administration
- Compliance-based to risk-based
- Simplify the process
- Assist with knowledge transfer
- Help management understand IH and our value to the organization

The IH Program Cycle

- Guides you through the process
- Removes the complications of IH
- Integration with labs for simple, efficient process
- Provides model for continuous improvement
- Simple knowledge transfer
